

EARTHLINK®

MPLS DIRECT CONNECT

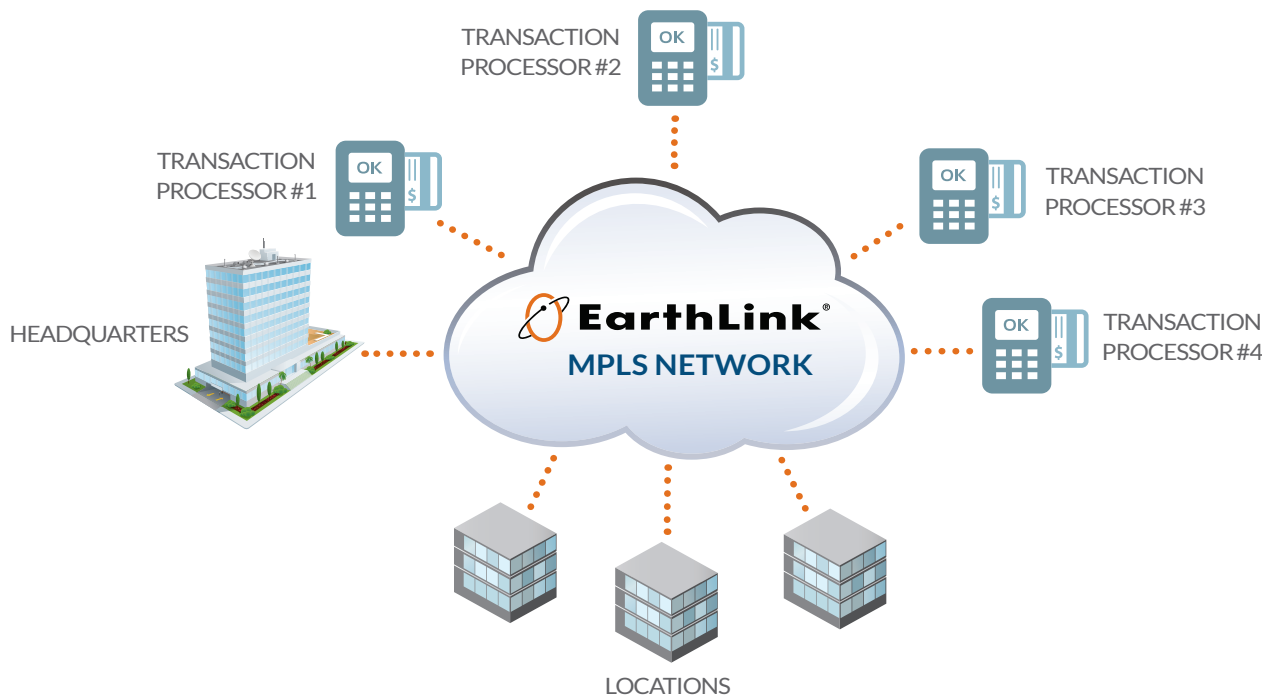

FAST, SECURE, RELIABLE CONNECTIONS TO LEADING TRANSACTION PROCESSORS

As a merchant, you need fast, secure and reliable connections to transaction processors. EarthLink MPLS Direct Connect service gives you the advantage of private connections to leading payment processing vendors to help you achieve PCI compliance.

With direct transport of Point of Sale (POS) traffic from each location on your MPLS network to your transaction processors, you'll reduce transaction times to as little as two seconds, reduce operating costs, and achieve PCI compliance.

Benefits

- Connect directly to your designated transaction processor for improved operational efficiency
- Connecting directly from each location saves time and bandwidth
- Eliminate HQ as single point of failure
- Private and secure connection to achieve PCI compliance
- Guaranteed performance of network with redundant paths to ensure high reliability
